

Comparative and Evolutionary Analysis of Cellular Pathways

by

Manikandan Narayanan

B.E. (Anna University, College of Engineering, Guindy, Chennai, India) 2001  
M.S. (University of California, Berkeley) 2003

A dissertation submitted in partial satisfaction  
of the requirements for the degree of

Doctor of Philosophy

in

Computer Science

with

Designated Emphasis in Computational and Genomic Biology

in the

GRADUATE DIVISION

of the

UNIVERSITY OF CALIFORNIA, BERKELEY

Committee in charge:

Professor Richard M. Karp, Chair  
Professor Sethi Rao  
Professor Kenneth Sjolander

Fall 2007

# Comparative And Evolutionary Analysis Of Cellular Pathways

**Author :** / **Category :**Uncategorized / **Total Pages :** 89 pages

[Download Comparative And Evolutionary  
Analysis Of Cellular Pathways PDF](#)

**Summary :** Free comparative and evolutionary analysis of cellular pathways pdf download - various pathways maintain the structure function and health of a cell and intricate molecular mechanisms underlie these cellular pathways inquiring how such mechanisms could have evolved is a basic question in evolutionary biology with wide-ranging implications for predicting and altering cellular phenotypes this dissertation presents our work on the computational analysis of genome-level data on biomolecular sequences and interactions available for many organisms to study the conservation and evolution of cellular pathways

**Pusblisher :** ProQuest on 2007 / **ISBN :** 9780549529170
