Summary : Free principles and practice of constraint programming - cp 2003 pdf download - this volume contains the proceedings of the ninth international conference on principles and practice of constraint programming cp 2003 held in kinsale ireland from september 29 to october 3 2003 detailed information about the cp 2003 conference can be found at the url <http://www.cs.ucc.ie/cp2003> the cp conferences are held annually and provide an international forum for the latest results on all aspects of constraint programming previous cp conferences were held in cassis france in 1995 in cambridge usa in 1996 in schloss hagenberg austria in 1997 in pisa italy in 1998 in alexandria usa in 1999 in singapore in 2000 in paphos cyprus in 2001 and in ithaca usa in 2002 like previous cp conferences cp 2003 again showed the interdisciplinary nature of computing with constraints and also its usefulness in many problem domains and applications constraint programming with its solvers languages theoretical results and applications has become a widely recognized paradigm to model and solve successfully many real-life problems and to reason about problems in many research areas
