**Summary :** Free a nurse to the sick body of christ pdf download - worship in spirit and in truth has to be based on god s word that regulates us on how we must worship him the foundation of the regulative principle of worship is found in the first two commandments self-styled worship is unacceptable to god regardless of the good intentions worship based on the traditions of men which were inspired by satan are used as a sword and a shield against the truth in doing this they successfully execute that very purpose which satan intends them to that of a false and perverse worship shielded by obstinacy a top priority in choosing a church to become a member should be based on no other criteria than that of a church that has its form of worship based on biblical principals
