Summary : Free the periphery in the knowledge economy pdf download - since the early 1980 s most peripheral regions of eastern canada have seen their population and employment levels stagnate then decline however these trends - illustrated by the first results of the 2001 census - are characterised by strong discontinuities mine closures collapse of fish stock but also by counter-trends dynamic entrepreneurship success in some regions in this book the authors examine the economy and geographic processes which underlie these trends and address the following questions are these processes specific to eastern canada or are they more general are all peripheral regions on an equal footing with respect to the trends towards metropolisation and increasing international trade are there any policy approaches which may counter-act some of the effects of these structural trends --p 4 of cover
