**Summary :** Free realtime physics active learning laboratories module 4 light and optics 3rd edition pdf download - realtime physics is a series of introductory laboratory modules that use computer data acquisition tools microcomputer-based lab or mbl tools to help students develop important physics concepts while acquiring vital laboratory skills besides data acquisition computers are used for basic mathematical modeling data analysis and simulations there are 4 realtime physics modules module 1 mechanics module 2 heat and thermodynamics module 3 electricity and magnetism and module 4 light and optics
