Summary : Free service life prediction of polymeric materials pdf download - service life prediction of polymeric materials global perspectives combines developed content derived from topics discussed in the fourth international symposium on service life prediction key largo florida december 2006 this critical examination of the existing and alternative methodologies used to assess the service life of polymeric materials presents readers with the advances in accelerated and field exposure testing protocols written by established experts in the service life community this volume introduces advanced methods including high throughput and combinatorial analyses models data collection and storage formats researchers and engineers involved with materials and polymer science coatings technologists and automotive materials will find service life prediction of polymeric materials global perspectives a useful tool
