Summary : Free the politics of the visible in asian north american narratives pdf download - examining nine asian canadian and asian american narratives eleanor ty explores how authors empower themselves represent differences and re-script their identities as visible minorities within the ideological imaginative and discursive space given to them by dominant culture in various ways asian north americans negotiate daily with birthmarks their shared physical features marking them legally socially and culturally as visible outsiders and paradoxically as invisible to mainstream history and culture ty argues that writers such as denise chong shirley geok-lin lim and wayson choy recast the marks of their bodies and challenge common perceptions of difference based on the sights smells dress and other characteristics of their hyphenated lives others like filmmaker mina shum and writers bienvenido santos and hiromi goto challenge the means by which asian north american subjects are represented and constructed in the media and in everyday language through close readings grounded in the socio-historical context of each work ty studies the techniques of various authors and filmmakers in their meeting of the gaze of dominant culture and their response to the assumptions and meanings commonly associated with orientalized visible bodies
