you'll learn how to integrate business intelligence, ERP, strategy maps, talent management suites and advanced analytics -- and use them together to make far more robust choices in compensation and benefit design. World-renowned compensation expert Bashker D. Biswas helps you bring financial rigor to compensation and benefit program development. He introduces a powerful human resource life cycle model for considering compensation and benefit programs. Fully addresses issues related to acquisition, general compensation, equity, compensation and pension accounting, assesses the full financial impact of executive compensation and employee benefit programs and discusses the unique issues associated with international HR programs. Finally, in People Analytics, Ben Waber helps you discover powerful hidden social levers and networks within your company and tweak them to dramatically improve business performance and employee fulfillment. Drawing on his cutting-edge work at MIT and Harvard, Waber shows how sensors and analytics can give you an unprecedented understanding of how your people work and collaborate and actionable insights for building a more effective, productive and positive organization. Whatever your HR role, these 6 ebooks will help you apply today's most advanced innovations and best practices to optimize workplace performance -- and drive unprecedented business value from world-renowned human resources experts: Alison Davis, Jane Shannon, Wayne Cascio, John W. Boudreau, Steven Director, James C. Sessil, Bashker D. Biswas and Ben Waber.
