Summary : Free interactive systems design specification and verification pdf download - this book constitutes the thoroughly refereed post-proceedings of the 9th international workshop on the design specification and verification of interactive systems dsv-is 2002 held in rostock germany in june 2002 the 19 revised full papers presented have gone through two rounds of reviewing selection and improvement all aspects of the design specification and verification of interactive systems from the human-computer interaction point of view are addressed particular emphasis is given to models and their role in supporting the design and development of interactive systems and user interfaces for ubiquitous computing
