System And Technology Advancements In Distance Learning

Author : Kumar Vive k / **Category :** Education / **Total Pages** : 392 pages

⬇ **Download System And Technology Advancements In Distance Learning PDF**

Summary : Free system and technology advancements in distance learning pdf download - with the ever-increasing usage of distance learning programs in academia the need for well-designed automated systems has become vital to the success of open and distance education practical solutions should be discovered and disseminated to meet the software needs of instructors academic researchers and software engineers system and technology advancements in distance learning meets this need outlining computational methods algorithms implemented prototype systems and applications of open and distance learning it is targeted toward academic researchers and engineers who work with distance learning programs and software systems as well as general participants of distance education
